DR ASRI MAHARI

BIOGRAPHY

MD, MSc, PhD

I am a Senior Lecturer in Epidemiology and Public Health, with a particular interest in global population health, including cognitive ageing, mental health and implementation research. I have good experience and skills in analysing data using advanced statistical methods such as multilevel models, structural equation models, and panel data analysis.

Prior to my PhD, I have experience as well as a practising Physician, a hospital manager and an educator in the field of Public Health in Indonesia.
